Datalogic, the leading European manufacturer of Hand-Held CCD and Laser readers, is continuously investing in 2D technology. The latest addition is the Lynx™ D432, available in two new models for standard and high resolution codes.

The Lynx™ family performs “omnidirectional” reading on a wide range of symbolologies from the most common 1D and 2D codes to stacked and postal codes, improving productivity and efficiency in any application. In fact, with the Lynx™ the user captures the whole image of the object to be identified no matter how it is orientated, thus avoiding any alignment constraint between the reader and the symbol to be read. Furthermore, the Lynx™ D432 can be used for “image-based” applications like signature capture, OCR and so on.

The captured image can be processed on board, or downloaded in different formats (.bmp, .jpg, .tif) for image processing on the host side. Also, the new image capture function allows complete image management. Up to 4 acquisition options allow image manipulation: zoom (from 20% to 200%), contrast, brightness (±100%) and windowing. Aiming at the image to be captured is very easy and intuitive thanks to the “double-click” trigger for Point & Read, and to the “five dot pointer” that marks the four corners and center of the reading area.

All models are equipped with a multi-standard interface for connection to the host via USB (COM and wedge emulation), RS232 or Wedge emulation interface. Finally, the VisualSetup™ software tool included in the Lynx™ package allows easy configuration of all the parameters to personalize the reader for any application, as well as a quick view of the downloaded images.

Features

- Omni-directional scanning
- Supports most popular 1D, 2D, Stacked and Postal codes
- Advanced image capture
- Standard and high resolution models
- Intuitive aiming
- Multi-standard interface: USB RS232, Wedge AT IBM
- Robustness: 1.8 drop resistance
- Visual Setup™ software tool included in the package
- Sunrise 2005 compliant

Applications

- Shop floor:
  - WIP
  - Tracking
  - Quality Control
- Document handling:
  - Front-Desk/Postal applications
  - Shipping & Receiving

Specifications

**ELECTRICAL CHARACTERISTICS**

**POWER SUPPLY** 10 to 30 VDC

**CONSUMPTION**
- 110 mA @ 12V (Stand-by)
- 245 mA @ 12V (Typical)
- 305 mA @ 10V (Peak current)

**OPTICAL CHARACTERISTICS**

**SENSOR** 640 x 480 pixel element, 2D CMOS Array

**IMAGE AND SIGNATURE CAPTURE** 640 x 480 VGA (8 bit gray scale)

**AIMING** Visible laser diode @ 650 nm

**MECHANICAL CHARACTERISTICS**

**DIMENSIONS** 203 x 117.2 x 68.9 mm

**WEIGHT** 265 g (without cable)

**PERFORMANCE**

**MAX. RESOLUTION**
- Linear: 4 mils ; Datamatrix: 6.6 mils (Lynx™ D432-E)

**READING FIELD**
- 21.8° (H) x 16.7° (V): Lynx™ D432
- 20° (H) x 15° (V): Lynx™ D432-E

**PRINT CONTRAST VALUE (min.)**
- PCS=23% (Lynx™ D432); PCS=27% (Lynx™ D432-E)

**READING ANGLE**
- Skew ±40° (Lynx D432); ±60° (Lynx™ D432-E)
- Pitch ±35° (Lynx™ D432); ±50° (Lynx™ D432-E)
- Tilt 360°

**GRAPHIC FORMATS** .bmp, .jpg, .tif; gray levels: 256, 16, 2

**CODES**

1D Codes

2D codes
- PDF417, DataMatrix (ECC200), QR, Composite Code, MicroPDF, MacroPDF, Maxicode

Postal codes
- POSTNET, PLANET, Japan Post, Australia Post, KIX Code, Royal Mail Code (RM4SSC)

**INTERFACES**
- RS232, Wedge AT IBM, USB (COM and Wedge emulation)

**LASER CLASSIFICATION**
- Class 2 (IEC 825-1 and CDRH)

**ENVIRONMENT**

**AMBIENT LIGHT** 0 to 100,000 lux

**IMMUNITY**

**OPERATING TEMP.** 0 to 55 °C

**STORAGE TEMP.** -20 to 70 °C

**HUMIDITY** 0 to 95% non condensing

**DROP RESISTANCE** 1.8 m multiple drops

Accessories

- **Stand**
  Robust and compact, the stand makes it possible to use the reader in a hands-free mode.

- **Universal Holster**
  It is designed to offer a robust and handy way to attach the readers to desktops, work-tables, forklift trucks, and other types of supports.

- **Protective case**
  - **Belt coupler**
    This permits the reader to be carried on a belt when not in use and protects it against drops.

- **Desk/Wall Holder**
  The Desk/Wall Holder provides ease of use and flexibility in many environments where work-space is limited.
