

### IMAGETEAM™ 5600

## Retail/Commercial Hand Held Linear Imager

#### **Features**

Superior Read Range - Imaging technology now extends the read range out to 24 inches (61 cm) on the bar codes used in retail applications.

Fast and Aggressive Decode - Even on poorly printed or damaged codes, the 270 scans per second scan rate and software digitizer quickly processes the data and transmits it to your application.

Durable - Built to last, there are no moving parts to wear out. Full impact resistant bumpers and a 5 year warranty make the IT5600SR one of the toughest scanners on the market.

Reads Emerging Codes that will be Part of Tomorrow's Solutions – The IT5600 supports the EAN-UCC system, including GTIN, EAN/UCC-14, and RSS.

Connectivity – The IT5600 supports all common interfaces: keyboard wedge, TTL RS-232, IBM retail, USB, wand emulation, HHLC, and True RS-232.

## **Sunrise 2005 Compliant!**

HHP's exclusive imaging technology provides breakthrough performance in the new IMAGETEAM™ (IT)5600 linear imager. The IT5600 is the most powerful linear imager ever produced. It excels at read range, reading poor quality bar codes, and is extremely durable. These features will make your data acquisition successful, and lower your total cost of ownership.

Many of today's applications benefit from greater reading range. With so many of today's packages too large for easy lifting, operators reach and stretch to read bar codes that are out of range. The IT5600's class-leading 24 inch (61cm) read range on 13 mil bar codes can greatly reduce these serious and costly application problems.

Poor quality bar codes are caused by printing irregularities or damage. They exist in most every application and, because most scanners struggle to read these bar codes, or simply cannot read them, they end up being manually entered. Manual entry increases data collection costs and introduces costly errors that must be traced and corrected.

Part of the IT5600's breakthrough performance is due to a new software digitizer. This design approach has enabled HHP to apply 30 years of experience in reading bar codes to solving the problem of reading poor quality bar codes. As a result, the IT5600's outstanding performance reading poor quality bar codes eliminates the costs associated with manual entry. Improve your operating efficiency by using the IT5600 to read bar codes that others pass by.

The IT5600 comes with a 5 year warranty. Shockabsorbing rubber contact surfaces and a Lexan® housing ensure this device will survive 50, 6 foot (1.8 m) drops to concrete. Retail and commercial applications can be tough environments. The IT5600 is up to the task because it is built to last.
