

Quadrus EZ™

## Quadrus EZ™

Easy scanning solution for 1D and 2D symbols. Instant scanning at the push of a button, no computer required. Versatile industrial 2D reader. Excellent for reading laser-etch and dot peen symbols in factory environment.

### Features:

- Decodes/second: up to 60
- Read range: adjustable from 2" to 10" (51 to 254 mm)
- Extended read range with optional external camera
- One touch setup button, no PC required
- Symbol alignment pattern
- User configurable symbol qualification
- Optional video output with text overlay

### Symbologies:

Quadrus EZ™ reads multiple symbologies and traditional bar codes:

- Data Matrix (ECC 0-200) 
- QR 
- RSS Family 
- PDF417 
- Micro PDF 
- All standard linear bar codes
